

Initial breach intimation: BR-000003

Organisation: Acme Retail Pvt Ltd

Generated at: 2026-09-02T10:05:15.078Z

Incident

Title: Marketing database exposure - re-run W1

Description: Unauthorized access to the marketing contact database detected during a routine audit. Re-run verification breach for steps 22-28.

Occurred at: 2026-08-28T09:30:00.000Z

Became aware at: 2026-09-02T03:30:00.000Z

Affected principals: 114

Involves children: No

Rule 7(1) narrative

Nature, extent and timing: Unauthorized third-party access to the Marketing Communications database exposed the contact records of 114 data principals between 27 and 28 August 2026.

Consequences: Affected principals may receive unsolicited marketing communications or experience minor privacy exposure of their name, email and phone number.

Mitigation: Access was revoked within 2 hours of detection, the exposed credential was rotated, and a full audit of database access logs is underway.

Safety measures: Affected principals are advised to be alert for unsolicited marketing communications and to report any suspicious contact to the DPO.

Responder contact: Data Protection Officer, Acme Retail Pvt Ltd, dpo@acmeretail.demo, +91-11-4000-0000
